Marble Mirror is a heroic, beautiful object for everyday use. The design is iconic and the mirror is made to last a lifetime. Designers Studiopepe are obsessed with precious materials, like marble, that gain in beauty over the years. "We believe that a beautifully designed product should last almost forever."

About the Designer

Italian designers Arianna Lelli Mami and Chiara Di Pinto met as students in Milan and started their career together as stylists, working on editorials for the likes of Elle Décor and T Magazine, and later designing products together. We love their energy and passion. They are constantly travelling and experimenting with combinations of colours, shapes and materials. "Collecting is very important for us," they tell us. "In our studio we have a sort of wunderkammer (cabinet of curiosities) with all our findings that inspire us with their shape, texture, or colour. A lot of flea market treasures." And what is the essence of good design? "Good design - whether a masterpiece or anonymous - goes with everything." welcoming sensation that follows through the whole experience of the product. We want to affect people in a positive way."
